

Russia invaded Ukraine on 24 February

Email to Light Hunter (Finland Contactee) **March 2022**

Don't not share this with anybody! Girls say The USA and NATO have hire black ops private contractors. MERCS. These boots on the ground are causing trouble for Russia forces. Singer Missiles, anti-tank busters linked to laptop mobile radar units are preventing Russia control of the air space. Improvised Explosive Devices 2 man teams are playing hell with Russia tanks. Also ET are Jamming (small EMPs) some of Russia communications.

March 2022 Email to Light Hunter (Finland Contactee)

At noon Eastern Standard Time the ETs will launch a massive probe surveillance fleet. The purpose is to evaluate the "emotional and physiological" status of the Russian and Ukrainian peoples. This will be confirmed by radar. This survey will last for 24 hours. Expect sightings. Both sides: Please don't shoot at their probes. Thank you.

Salla, I've been put off sharing this with you because I didn't want to worry folks. On **3/9/2022** the Girls said: "Starting this summer of 2022 till January of 2023 a world wide travel ban hits the world! The roads will be closed down. Only food and doctor travel allowed." I hope they're wrong.

Nudge Squidfish Hello Squid! I have seen a lot of these lately especially in the nights when the sky is clear enough. These ones tend to fly and then stop and make the formations of the star constellations. At least they give the impression of the star constellation.. Probably they are very close to us and just hiding in front of the real stars which gives us an impression about the star constellations. I have seen them flying apart from Big Dipper a few times and on the other day Twins (Romulus and Remus) were flying freely in the sky just before organizing again on their right place on the sky. This is incredible! Thanks Squid ☺☺!

Reply to Salla **3-3-2022**

Thanks of the info on "FreeCropVideo.exe". I also need to research NASA software too! I'm looking for state of the art. "50-100 US dollars" Hopefully? Maybe a pipe dream? Something that will give the public a highly detailed image and allow for graphic inserts of description when comparing and contrasting ships from two different recording dates. I am seeing a lot of ships that our group has posted from around the world. Other people are posting ships that are very similar to ours. Also, multi language text for EU & ASIA postings.

Update: **3-4-2022** Twitter post

Undal (Martian Wife). 5:30 EST. Shield down. Over Ukrainian airspace. Data Collection/nuke. Crew experienced "Air Bust" Not sure if Russian or Ukrainian? ET investigators Review. No staff or craft damage! Revise protocol: "NO UFO" over war zone without Shield up! I have since been advised that it was an

“Ukrainian rocket malfunction”. Not happy my girls are in harms way.

Update: Twitter post **3-5-2022** Moboo Says: (Jupiter Wife) “The Russian military had agreed through the ET contacts that they would halt their advancing armory column. They would not attack the village. The commander broke his word. So UFO's destroyed the Russian armor”. See history Alexander The Great Siege of “Tyre”. UFOs destroyed the port walls. 332 BC. Allow Alexander to win. She also say Russian general are defecting on the battlefield.

Nudge Squidfish Hi Squid! Yes, you are welcome my cosmic friend! This winter these beings have removed their masks literally, so lot of activity has been happening around. It looks like they have finally started to "reward" me and us by showing their maneuvers much more clearly than earlier. Of course I have seen these occurrences also earlier but now even the most biggest stars have been moving without restraint. Are we living in a matrix?? Thank you Squid ☺ ☺!! PS. Say hello to Punky and thank her for those great captures that you have renovated on your channel!!

@Light Hunter They're not letting me record no matter how close they flyby. I sense they are pissed off about the war. Not sure I understand what is going on? maybe above my pay grade? I'll keep trying. They are giving me info about the war a day or two before it happens. CNN Keeps confirming their info.

Nudge Squidfish Yes, I know the problem; you know what they are and what are their abilities, but instead of it they are willing to give only a little tips of their real habits, that's quite frustrating! A sense of humor is needed LOL!! I think also that they are nervous about the "special project" in U-country and that's why I've been asking for their help as well. Probably this is the reason they have been flying so freely; a specific time needs some specific things to do.. I know that you are good at receiving the info from them, keep up channeling Squid ☐☐

@Light Hunter I will keep you posted of ET Info. I've held this back: "Moscow will meet with terrible freak weather this summer. It will be the summer of hell for Russia". I took it to mean that what they been doing to Ukraine, mother nature will do to them. Hope I'm wrong. Not into more suffering.

3/27/2022

Ets advise: "Ukrainian special operations" will launch a devastating assault on hidden Russian armor. Russia tank lost extremely high. Putin is under threat from his own government, His orders are not being obeyed. Public Protest and unrest growing!

The ETs advise Mr. Putin to withdraw from Ukraine.

3/29/2022

ETs Say: "Mr Putin we will render your Nuclear, Chemical and Biological weapon inoperable should you try to use them and will "engage" all Russia military forces in Ukraine if you ignore this warning!"

Told to Post to Face Book **9-30-2022:** Since 2007 I have been communicating with 100 of different ET races about their culture, technology and intentions. It is my opinion that there is a vast network of ET civilizations that have a very similar political structure as our Earth's United Nations. Some of these ET nations have overlapping agendas; other have opposing agendas concerning the development of human evolution.

4-1-2022 update

Undal The ET says that a second Russia Armor column would be attacked and destroyed in Donbas. They will be trying to come to the aid of the Wagner Group.

Kick off Twitter Then Back on Twitter

On **9-30-2022** I asked this question: Will Putin be able to hold on to those parts of Ukraine he annexed? My girls replied: "These territories will be ripped away! Ukraine will take them back! Ukraine will drive them back to Russia. Ukraine will take and hold some Russia lands, which will be returned to Russian during negotiations. By November of 2022 Putin will come to the "last bit of his power". This will be the 2rd collapse of the soviet union."
